CONSULTING

| Measure | Greener Homes Grant Program | Enbridge HER Rebate Program |
|-------------------------|-----------------------------|--------------------------------------|
| ATTIC INSULATION | | |
| ≤ R-12 but not empty | \$1,800 | Achieve R-50 |
| > R-12 up to R-25 | \$600 | Achieve R-50 |
| > R-25 up to R-35 | \$250 | Achieve R-50 |
| | | \$750 |
| | | Increase from R-35 or less to ≥ R-60 |

| CATHEDRAL / FLAT CEILING INSULATION | | |
|--|-------|--------------------------------------|
| ≤ R-12 but not empty | \$600 | Achieve R-28 |
| > R-12 up to R-25 | \$250 | Achieve R-28 |
| No Insulation | \$600 | Add min. R-20, 20% |
| | | \$750 |
| | | Increase insulation by at least R-14 |

| EXTERIOR WALL INSULATION | | |
|---------------------------------|---------|----------------------------------|
| Exterior Wall Insulation | \$3,300 | Add R-7.5 to R-12 |
| Exterior Wall Insulation | \$3,800 | Add ≥ R-12 to R-20 |
| Exterior Wall Insulation | \$5,000 | Add > R-20 |
| | | \$1,000 |
| | | Add ≥ R-3.8 to achieve ≥ R-12 |
| | | \$1,750 |
| | | Add ≥ least R-9 to achieve ≥ R12 |
| | | \$3,000 |
| | | Achieve ≥ R-20 |

| | | |
|----------------------|-------|-------------------------------|
| Exposed Floor | \$350 | Add R-20 to min. of 120 sq ft |
|----------------------|-------|-------------------------------|

| FOUNDATION INSULATION | | |
|--|---------|---------------------------|
| Basement Wall | \$1,050 | Add R-10 to R-22 |
| Basement Wall | \$1,500 | Add > R-22 |
| Basement Header | \$240 | Add min. R-20 to min. 80% |
| Basement Slab | \$400 | Add min. R3.5 to min. 50% |
| Crawl Space Ext Wall incl. Header | \$1,040 | Add R-10 to R-22 |
| Crawl Space Ext Wall incl. Header | \$1,300 | Add > R-22 |
| Crawl Space - Ceiling | \$800 | Add > R-24, min. 100% |
| | | \$750 |
| | | Insulate to at least R-12 |
| | | \$1,250 |
| | | Insulate to at least R-23 |
| | | \$500 |
| | | Insulate to at least R12 |
| | | \$1,000 |
| | | Insulate to at least R23 |
| | | \$1,000 |
| | | Insulate to at least R-32 |

| AIR SEALING | | |
|-------------------------|---------|---------------------------|
| Meet RUR Target | \$550 | RUR target |
| RUR Target + 10% | \$810 | RUR target + 10% |
| RUR Target + 20% better | \$1,000 | RUR target + 20% |
| | | \$100 |
| | | Renovation Upgrade Report |
| | | \$150 |
| | | RUR target + 10% |

| WINDOWS & DOORS (per rough cut opening) | | |
|--|-------|------------------------------|
| Windows | \$125 | ESTAR & ER ≥34 OR U ≤1.22 |
| Windows | \$250 | ESTAR & ER ≥40 OR U ≤1.05 |
| Doors | \$125 | ESTAR & ER ≥34 OR U ≤1.22 |
| | | \$40 |
| | | ENERGY STAR certified models |
| | | \$40 |
| | | ENERGY STAR certified models |

HEATING & COOLING

| | | | | | |
|--------------------------|---------|------------------------------|-------|---------|---|
| Natural Gas Furnace | | | | \$250 | Replace <96% with ≥96% AFUE |
| Natural Gas Boiler | | | | \$1,000 | Replace <90% with ≥90% AFUE |
| GSHP | \$5,000 | New Install | | | |
| GSHP | \$3,000 | Replacement | | | |
| ASHP - 2 heads | \$2,500 | New or Replacement | | | |
| ASHP - 3 heads/central | \$4,000 | New or Replacement | | | |
| CCHP - 3 heads/central | \$5,000 | New or Replacement | | | |
| Domestic Hot Water (DHW) | \$1,000 | Domestic Hot Water Heat Pump | \$400 | | Replace NG DHW with ESTAR tank (EF≥0.80), or ESTAR tankless |

| | | | | | |
|----------|---------|------------------|--|--|--|
| Solar PV | \$1,000 | Per kW, ≥ 1.0 kW | | | |
|----------|---------|------------------|--|--|--|

| | | | | | |
|--|--|--------------------------|--|--------------------------------|--|
| | | Total GH Measures | | Total Enbridge Measures | |
|--|--|--------------------------|--|--------------------------------|--|

| | | | | | |
|---------------------|-------|-------------------------|-------|-------------------------|--|
| Audit Rebate | \$600 | For qualifying upgrades | \$600 | For qualifying upgrades | |
|---------------------|-------|-------------------------|-------|-------------------------|--|

BONUS

| | | | | |
|---------------------|--|--|-------|----------------------|
| 3 Measures | | | \$150 | |
| 4 Measures | | | \$500 | |
| 5 Measures | | | \$750 | |
| Basement Insulation | | | \$500 | if 100% is insulated |

RESILIENCY MEASURES - (must be combined with at least 1 other measure from

| | | | | |
|-------------------------------|---------|--|--|--|
| Thermostat | \$50 | Replace a manual thermostat with Smart or Programmable | | |
| Batteries for Solar PV | \$1,000 | To provide standby power | | |
| Roofing Membrane | \$150 | Applied to entire roof | | |
| Foundation | \$875 | Water Proofing | | |
| Moisture Proofing Crawl Space | \$600 | 100% of floor, walls and headers | | |

NOTES:

- Insulation rebates prorated with minimum of 20% with the exception of exposed floor, crawl space ceiling, and
- Greener Homes Grant program requires a minimum of 1 measure.
- Enbridge HER requires a minimum of 2 measures or 3 measures if upgrades include a NG furnace.
